

ICE CREAM FACE – Ice Cream Cone Recipe

Try Antonio's Ice Cream recipe to create your own little Ice Cream Face. Then, take a picture and email it to us at: YummyFaceKidsFans@yahoo.com and we will post it on our social media sites!

ICE CREAM CONE

This recipe is an easy one. We will not make the ice cream from scratch so you will save lots of time and not make such a mess in the kitchen. BUT, you can still become a little Yummy Face Kid once you are done!

INGREDIENTS

4 scoops of your favorite ice cream flavors
ice cream cone, your favorite type
whipped cream

You can purchase one carton of ice cream that contains multiple flavors or separate cartons of different flavors. If you prefer, you can use four scoops of the same flavor. Just let your parents know which flavors you like.

With an ice cream scooper, scoop out one flavor of ice cream at a time. Place the scoop onto the cone. Be sure to get one scoop per flavor. Repeat this step until you have four scoops or all flavors on your cone. Top with whipped cream. Hurry up and eat the ice cream cone before it melts. ENJOY!
